

## Ποσειδωνία

Η ποσειδωνία (*Posidonia oceanica*) αποτελεί το 45% της βιομάσας των θαλάσσιων φυτών. Τα ποσειδωνιάκια (ή ποσειδωνιάκια «αποβλαστήρια») φτάνουν τα 1200 εκατοστά ύψους. Η ποσειδωνία είναι η βασική τροφή της χελώνας *Caretta caretta*.
