

Scientific Station Gerakas

For your information, an Exhibition Centre operates at Dafni, where you can explore the protected area and get familiar with sea turtle life cycle, from mating to the emergence of hatchlings, through audio-visual material (e.g. photographs, posters and video). In addition, you can visit the recently established Information centre/Research station of NMPZ, which operates since 2014 at Gerakas – Vasilikos, whereas a similar centre is expected to operate at Kalamaki during 2015.
